Amit -- Success Story, Student of brighter future learning centre

Amit, he has been coming to our centre for last 3 years. His father is a vegetable seller. Amit enrolled last year in an English medium public school. Since then he has been making lots of progress in his studies. Thank you 'Sharad Kumar' who has sponsored his schooling and helped his family who is unable to afford his education of their bright son! We have noticed Amit behavior and attitude has changed over the months, and now Amit has been serious in his studies and he is making lot of progress in attending regular school and coming to our learning centre.

“True life experience, account”

“In a sports stadium, 8 boys were standing on a track for racing, Ready! Steady! Bang! With the sound of pistol all boys started running. Hardly, they had covered 10-15 steps. One boy slipped and fell, he started crying due to pain when other 7 boys heard him and all of them stopped running stood for a while, turned back and ran towards him. All the seven boys lifted the boy, pacified him, joined hands together and walked together and reached winning post. Officials were shocked; many eyes were filled with tears. It happened sometime ago at Pune.

Race was conducted by National Institute of Mental Health. All participant were mentally retarded
What did they teach? - Teamwork, humanity, sportsman spirit, love, care and equality.
We surely can never do this because we have brains, we have ego, we have attitude”
