Investing your time wisely means living life in a manner that reflects God, that let your light shine before others, that has a positive effect on those around you.

Properly managing the time we are given by God in a manner that helps us accomplish our goals, while allowing us to have a proper balance in our work, recreation, family life, and faith life, is an important part of our life on earth.

#### Good thot:

The effect of a smile is powerful—even when it is unseen. Telephone companies throughout the United States have a program called “phone power” which is offered to employees who use the telephone for selling their services or products. In this program they suggest that you smile when talking on the phone. Your “smile” comes through in your voice.

“I was desperately trying to recruit a Ph.D in computer science for my department. I finally located a young man with ideal qualifications who was about to be graduated from Purdue University. After several phone conversations I learned that he had several offers from other companies, many of them larger & better known than mine. I was delighted when he accepted my offer. After he started on the job, I asked him why he had chosen us over the others. He paused for a moment & then he said: ‘I think it was because managers in the others companies spoke on the phone in a cold, business-like manner, which made me feel like just another business transaction. Your voice sounded as if you were glad to hear from me...that you really wanted me to be part of your organisation.’ You can be assured, I am still answering my phone with a smile.”— Dale Carnegie
